# Release Notes 1.17.0

Published on 11/07/2018

Improvements

- On the My Reviews page see all your reviews in one place, sorted by status.

- All participants within a conversation in Review & Approval will be notified of responses via in-app and email notifications. These notifications settings can be adjusted in each user's Personal Settings.

- Include time in your reports on *All Work, Tasks,* and *Proofs* with a new column for **Time Tracked.**

- Quickly view LOE for each task with LOE badges now included within work lists in projects.
