Release Notes - May 10, 2021

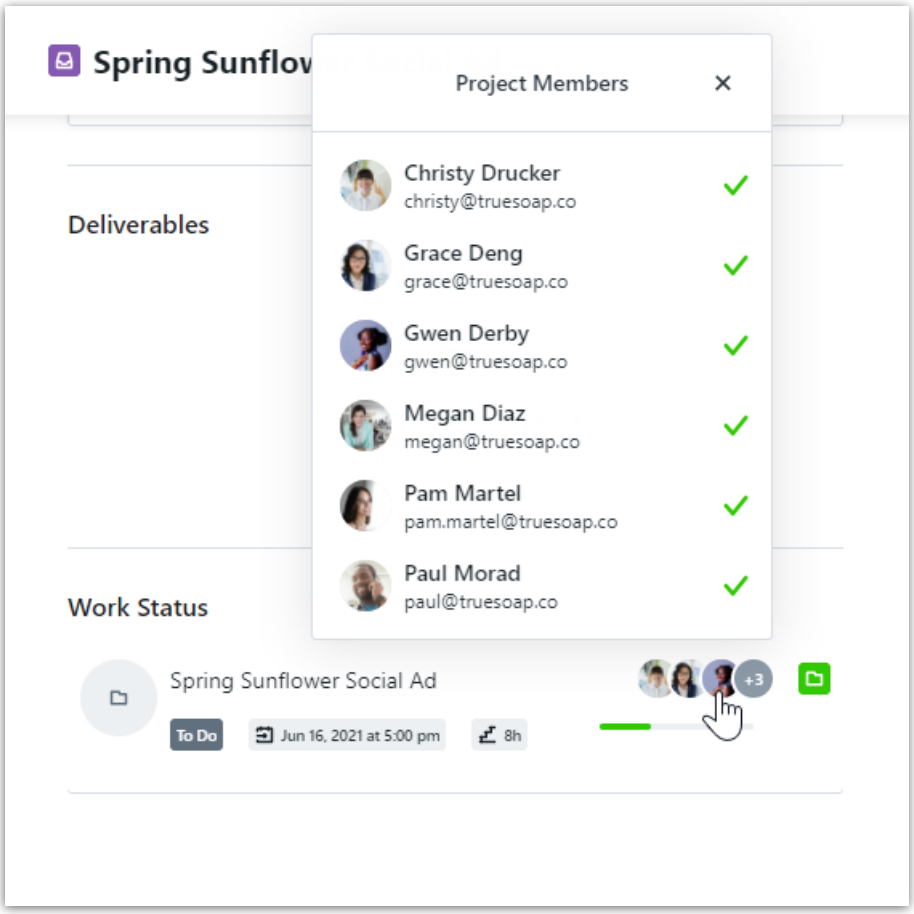
Published on 05/05/2021

Improvements

More Transparency with Requester Insights

Requester Insights (https://guide-ignite.inmotionnow.com/help/requester-insights) provide your requesters with transparency and help avoid one-off status updates. Now, you can provide your requesters with even more information by turning on **Share Associated Work Members** in your feature settings, allowing your requesters to view team members assigned to work items.

Available Only to Business and Enterprise Customers



Exporting in the (Time) Zone

Sharing reports in your organization is essential, so let's make it easy! Now when you export reports (https://guide-ignite.inmotionnow.com/help/reports#exporting-a-report) with dates and times, these will be based on your personal time zone settings.

Default Time Categories for the Whole Team

Help save your team clicks and ensure time is categorized accurately! WithTime Categories (https://guide-ignite.inmotionnow.com/help/getting-started-time-tracking#time-categories) enabled, admins can now set a default time category at the role level.

Available Only to Business and Enterprise Customers
