New Features

Priorities*

Not sure what to work on next? Communicating the relative importance of all the work your team is juggling is paramount to achieving alignment within your organization and managing your team's ability to produce desired outcomes. Now you can easily assign the appropriate level of priority to projects, tasks, and proofs in inMotion ignite with our **Priorities** (<https://guide-ignite.inmotionnow.com/help/priorities>) feature! Head over to your Account Settings to start adding priorities that align with your organization's needs.

**Available only to Business & Enterprise Customers*

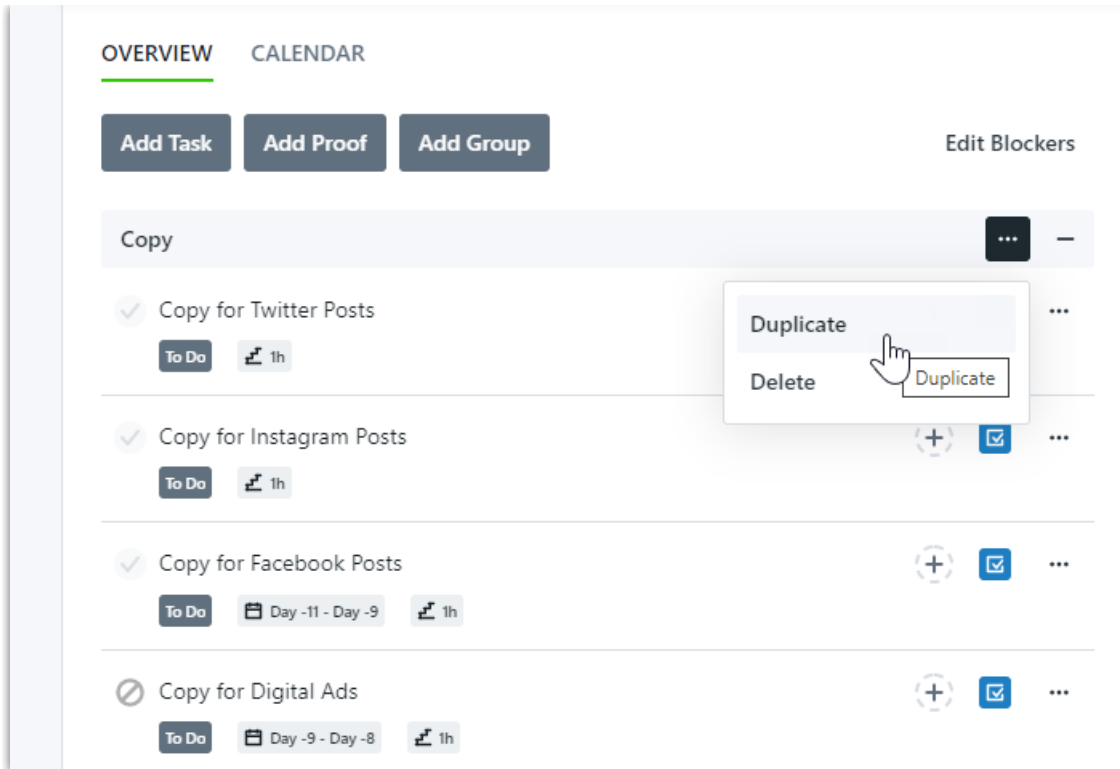

The screenshot displays the 'My Projects' dashboard. At the top right is an 'Add Project' button. Below the title, there are filters: 'List, by Due Date' and 'Filter by tags...'. Three project cards are listed:
