# Release Notes - November 1, 2021
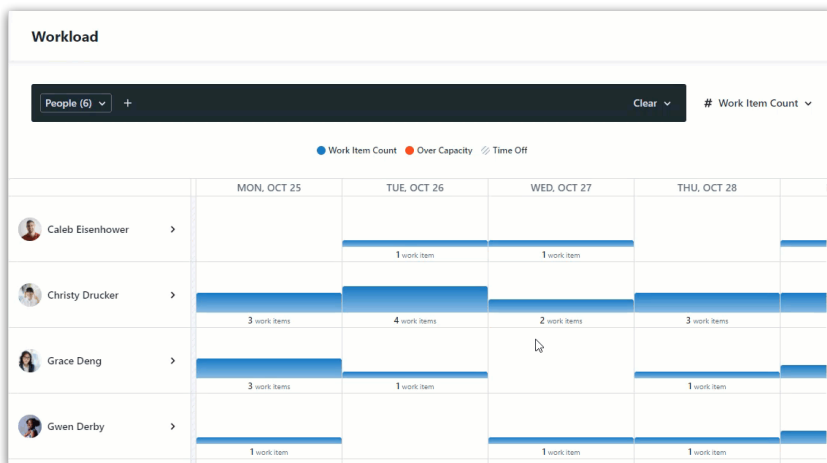

Published on 10/31/2021

New Features

Specialties*

Quickly find and assign the right people to work based on the skills needed to complete the task at hand! Create Specialties (https://guide-ignite.inmotionnow.com/help/specialties) in Account Settings and apply to each team member. Once added you can power up project templates by using Specialties to effortlessly bulk assign work items to team members when setting up new projects.
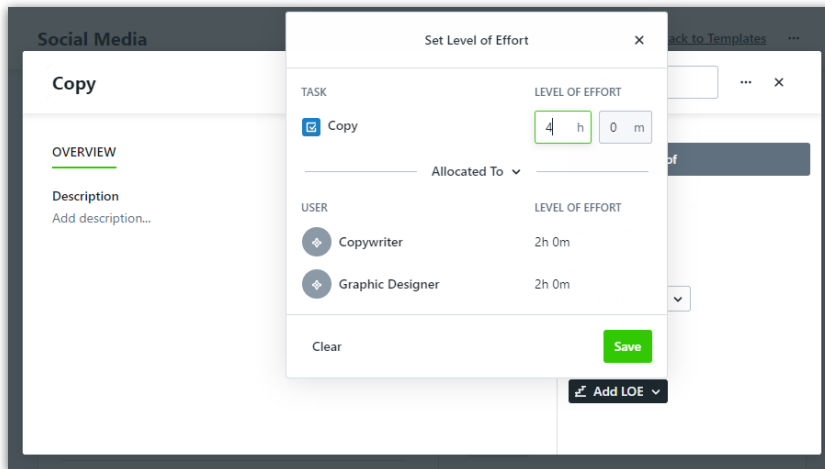

Available only to Business & Enterprise Customers

Workload*

Get ready to see all of your team's work in one place to better manage your resources! Workload (https://guide-ignite.inmotionnow.com/help/workload) views are a fantastic way to visualize how much work each team member has been assigned, what those work items are, and when they are due to help balance the workload across the team without over-burdening any individual.

Available only to Business & Enterprise Customers
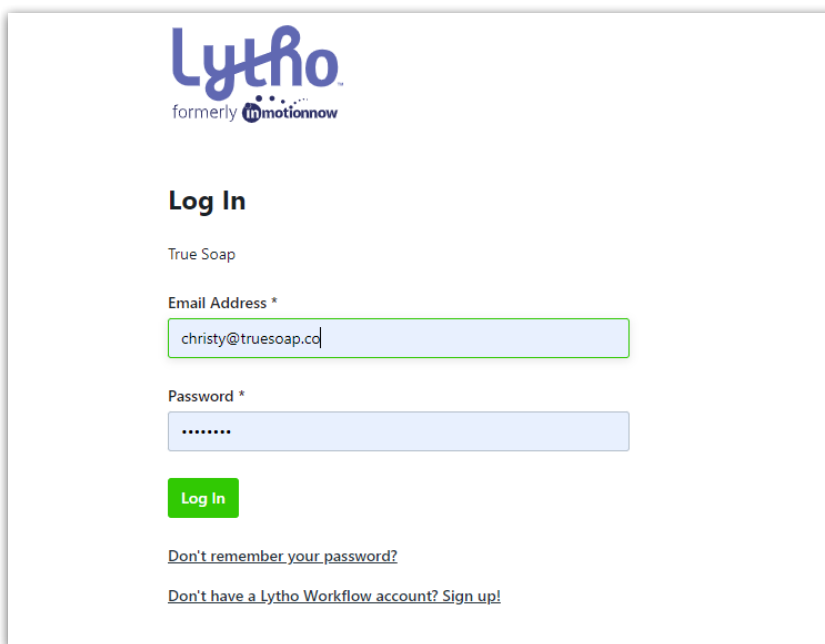

Automated Level of Effort

Tracking LOE is an essential key to managing your team's bandwidth and understanding the full scope of your projects. Now when you add Level of Effort to a work item, the hours will automatically be distributed evenly across members. Need to distribute hours differently? You also have the flexibility to allocate these hours however needed.
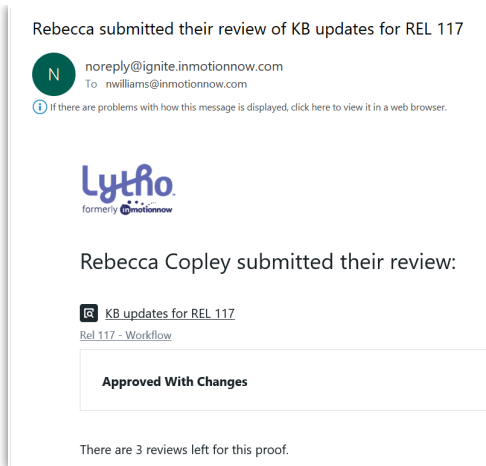

# Improvements

Branding Updates
