## Improvements

### View More in My Reviews

See critical information at-a-glance! My Reviews will now display your review status, if a review is optional for you, and if you have been skipped.

The screenshot displays a user interface for reviewing work items, divided into two main sections: 'TO DO' and 'IN REVIEW BY OTHERS'.

**TO DO Section:**

- Graphics Review:** Includes a 'Social 2022' link, a 'To Do' status, and a due date of 'Feb 2'.
- Spring 2022 Email Blast:** Includes a 'To Do' status, a due date of 'Feb 14', an 'Unopened' status, and a note: 'Reviewing this proof is optional'.

**IN REVIEW BY OTHERS Section:**

- Create approval:** Includes a 'True Soap Email Blast' link, an 'In Review By Others' status, 'Version 3', and a date of 'Feb 24, 2021'. A note on the right states 'You were skipped'.
- True Soap email blast:** Includes a 'Summer Scents Ad' link, an 'In Review By Others' status, 'Version 2', and a date of 'Jan 14, 2021'. A note on the right states 'You submitted: Approved With Changes'.

### More Transparency with Requester Insights\*

A new option, [Show Work Item Number](https://guide-ignite.inmotionnow.com/help/requester-insights#share-associated-work-number%C2%A0) (<https://guide-ignite.inmotionnow.com/help/requester-insights#share-associated-work-number%C2%A0>), is now available for Requester Insights allowing your requesters to see auto-generated numbers assigned to the associated work. Head over to Features in Account Settings to enable!

☒ **Requester Insights**  
 Allow requesters to see read-only information about the work being done for their requests. When enabled, requesters will be able to see the name, start date, due date, and status of the work being completed for each request.
 Close

☒ **Share Associated Work Assignees**  
 Allow request stakeholders to see which Team Members are assigned to the associated work.

☒ **Share Associated Work Number**  
 Allow request stakeholders to see the auto-generated number assigned to the associated work.

## Improving The Way You Automate

- Route templates that are used in project templates will now automatically update if the route template has been updated.
- Priority is now an available data type for project auto-naming

## Quality of Life Improvements

- The Email Timezone setting has moved to the My Profile page and copy has been updated to **Timezone for Emails and Exports.**
- Statuses and custom Fields will now show which items they are applicable to with a badge, making this information accessible without having to open individual items.
